

UAM OPERATING PROCEDURE 250.3

COMPUTER USAGE POLICY

The University of Arkansas at Monticello provides an opportunity for students and other members of the UAM community to enhance their educational experiences and expand their academic knowledge by making available to them access to computer facilities and resources, including the Internet. This technology places a significant amount of power and information in the hands of its users. This power carries with it an equal amount of responsibility. The Computer Usage Policy has been created to define what the University of Arkansas at Monticello considers responsible and ethical behavior in using its computing facilities and resources and is applicable to all UAM faculty, staff, students, and guests, at all three campus locations.

For a copy of the most recent policy which includes information security, see the Computer Usage Policy on the Information Technology website at:
