ARKANSAS TIMBER HARVEST REPORT

2Q QUARTER 2025

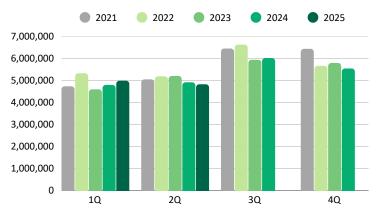

The Arkansas Timber Harvest Report displays Arkansas timber severance tax data as reported from the Arkansas Department of Finance and Administration. Timber severance taxes are collected, reported, and remitted by each primary processor of Arkansas timber. It is computed based on the weight determined the last time timber is weighed prior to undergoing the first primary processing after severance. Severance totals can be submitted one of three ways: monthly (by the 25th day of the following month), quarterly, or annually. Reporting time frame varies by primary processor. For more information regarding Timber Severance Taxes please refer to Ark. Code Annotated 26-58-111(7). If you have questions about the report, please contact Rebecca Montgomery at 870.460.1052 or forestbusiness@uamont.edu.

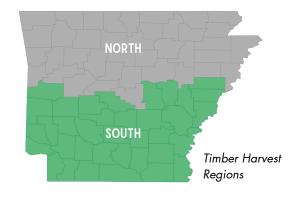

Table 1. Timber Harvests by Region: Severed tons reported by mills during the 2Q Quarter 2025

	Total Tons	Total Tons	% Change	Total Tons
	(June '25)	(2Q '25)	(2Q '24 - 2Q'25)	(Year to Date)
North	216,438	595,827	-13%	1,181,364
Pine	191,293	57,775	-8%	1,044,262
Non-Pine	25,145	57,775	-40%	137,102
South	1,535,300	4,234,274	0%	8,643,974
Pine	1,438,474	4,015,276	2%	8,187,256
Non-Pine	96,826	218,998	-29%	456,718
State Totals	1,751,738	4,830,101	-2%	9,825,518
Pine	1,629,767	4,553,328	1%	9,231,518
Non-Pine	121,971	276,773	-31%	593,820

Note: Tons are short tons (1 ton=2,000 lbs)

Figure 1. Five-Year Trend: Total Tons of Timber Severed by Quarter in Arkansas

TIMBER HARVEST TRENDS

Overall, harvest levels in Arkansas were down 2% during the second quarter. Over the past three years, data shows a decrease in overall removals during the second quarters of each year. North Arkansas saw an overall decrease of 13% compared to this time last year.

Non-pine removals continue to decrease while hardwood prices remain relatively high during this quarter. Dropping 40%, north Arkansas saw the largest harvest decline in non-pine levels compared to this time last year. Pine harvest levels remained steady over the entire state, with a slight increase noted in south Arkansas and a decreased noted in the limited harvests in north Arkansas.
