

## EMERGENCY MEDICAL TECHNICIAN-BASIC

### Program Description

EMT-Basic Course is an introductory study of emergency medical pre-hospital care. The course prepares individuals for employment as a Basic EMT. It follows the national standard curriculum set forth by the Department of Transportation. Instruction includes standard of care, legal/ethical issues, and pre-hospital procedures and techniques performed during emergencies. Upon successful completion, the EMT candidate will meet the requirements to challenge the National Registry EMT-Basic examination. NOTE: EMT-Basic is a prerequisite for the Paramedic program (offered on the McGehee campus).

The EMT-Basic Certificate of Proficiency can be obtained in one (1) semester. The costs are approximately \$1,550 for tuition and fees and approximately \$500 for books and supplies.
